

# RUST BUSTER

## RB7429L & RB7429R Rear Upper Control Arm Mount 2007-2014 Chevy Tahoe & GMC Yukon

### REQUIRED TOOLS

Jack Stands or Lift  
Mig Welder  
Paint/Primer  
Hand Grinder  
Cutting Wheel or Torch  
Welding Gloves  
Welding Hood/Shield  
Ear & Eye Protection  
Sockets & Wrench  
Fire Extinguisher  
Paint Marker or Chalk  
C-Clamps  
Mallet

### KIT CONTAINS

Rear Upper Control Arm Mount  
M14 Flanged Hex Head Bolt

### QTY

1

# RUST BUSTER

## RB7429L & RB7429R Rear Upper Control Arm Mount 2007-2014 Chevy Tahoe & GMC Yukon

### 1) PREPARING YOUR VEHICLE

Begin by disconnecting your battery prior to starting your installation.

Inspect your vehicle for leaking fuel lines, fuel tank and engine components. If you have fuel leaks repair all leaks prior to starting your installation. If your fuel tank is near your welding area **remove your tank prior to welding.**

Remove all combustible items above the work area such as seats, carpets, padding, etc.

**Keep all flammable materials away from the vehicle work area.**

### 2) PREPARING YOUR WORKSTATION

Keep a fire extinguisher close by in the case of fire and make sure you always have a designated "Fire Watch" to assist during the cutting or welding phases.

Abide by all apprenticed welding safety standards and practices.

Always use appropriate welding eye protection, ear protection, and work and fire safety gloves during the installation and within the work area.

### WARNING!

If you are unsure on how to perform the installation or how to operate any of the required tools listed above, it is **HIGHLY** advised that you enlist the work of a certified welder/installer.

Failure to follow proper safety precautions and instructions may result in serious injury. **The user assumes all liability when installing the product.**

## RB7429L & RB7429R Rear Upper Control Arm Mount 2007-2014 Chevy Tahoe & GMC Yukon

### 3) PREPARING FOR YOUR INSTALL

Remove your vehicle's body mount bolts and bushings on the side of the vehicle you're working on, and lift the body off the frame enough so that you have room to cut and weld the top of the rail.

Remove your rear wheel, and disconnect the control arm from the mount.

### 4) CUT

Begin removing the mount from the frame.

Grind the frame free of rust and debris, revealing bare metal.

Spray the work area with a weld-through primer to help prevent the risk of rust development.

# RUST BUSTER

## RB7429L & RB7429R Rear Upper Control Arm Mount 2007-2014 Chevy Tahoe & GMC Yukon

Using the included hex bolt, loosely install the new mount to help with achieving proper alignment.

### 5) **WELD**

Following proper welding procedures, tack weld the mount onto the frame before welding it on fully. Weld 100% around all edges.

### 6) **PAINT**

Paint the part with primer or other rust inhibitor to help prevent or reduce the risk of rust formation.

We recommend our Rust Buster Rust Converter & Primer Spray Paint (RB9917).

### 7) **REINSTALL**

Reinstall your vehicle's body and wheel.
