

LED THIRD BRAKE LIGHT

(2015-2020 F-150)

(2017-2020 F-250 / F-350 SUPER DUTY)

(2019-2020 RANGER)

INSTALLATION INSTRUCTIONS

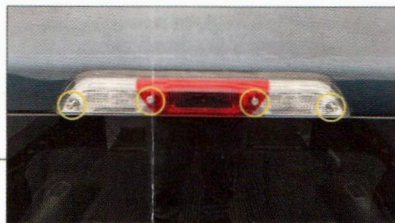

CONTENTS

(1) Third Brake Light

TOOLS REQUIRED

T-20 Torx Screwdriver
Flathead Screwdriver
Plastic Pry Tool

SKU # T623448 / T623449

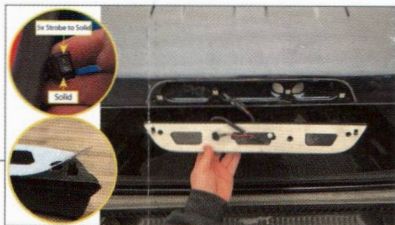

STEP 1

Remove (4) T-20 Torx / flathead screws from the third brake light assembly.

STEP 2

Remove the brake light from the vehicle using a plastic pry tool. Remove the electrical connector clipped to the vehicle, and unplug the brake light from the vehicle harness.

STEP 3

Peel the white backing from the pre-installed gasket. Plug in the brake light electrical connector into the vehicle's wiring harness. Toggle the switch to enable 5x strobe feature.

STEP 4

Re-assemble the vehicle using the original hardware. Tighten until secure.

Installation is now complete.
