

LED SIDE MARKER LIGHTS

(2019-2021 RANGER) 

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Pair of Side Marker Lights

TOOLS REQUIRED

N/A

STEP 1

Reach in between the marker light and the inner fender liner. Reach half way up the backside of the light and press up on the tab, while pulling out the bottom corner of the light.

STEP 2

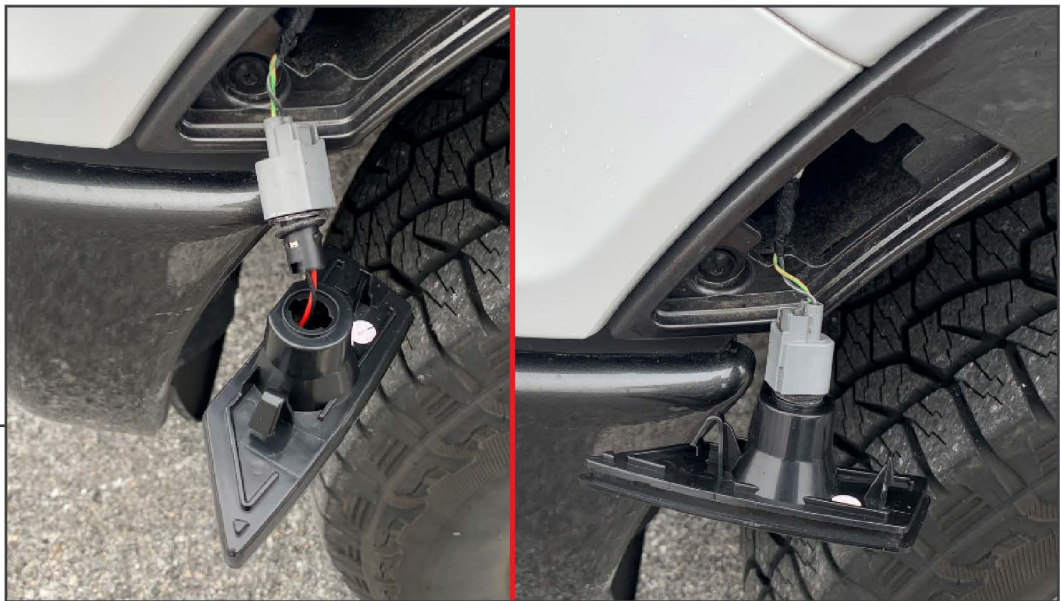

Remove the side marker light from the fender flare. Twist the light socket counter clockwise to remove the light bulb from the side marker housing.

STEP 3

Remove the light bulb from the light socket.

STEP 4

Plug the LED side marker light into the light bulb socket.

STEP 5

Install the LED side marker into the vehicle in reverse order of removal. Press the LED side marker light firmly into the fender flare to ensure the light is fully seated.

STEP 6

Installation is now complete.
