PROCEDURE:

REMOVE CONTENTS FROM BOX AND VERIFY ALL PARTS ARE PRESENT. READ INSTRUCTIONS CAREFULLY. CUTTING MAY BE REQUIRED. INSTALLATION MAY INTERFERE WITH FRONT MOUNTED SENSORS.

1. Start installation from under the front of the vehicle. Remove the plastic splash guard from below-behind bumper, **(Figure 1)**. Determine if the vehicle is equipped with tow hooks. **IMPORTANT:** Tow hooks cannot be reinstalled with the Bull Bar. Also, it may be necessary to temporarily remove the factory skid plate, (if equipped), to access the mounting locations.

Tow Hook equipped vehicles:

- a. Remove the driver side tow hook and hardware from the end of the frame channel, **(Figures 2 & 3)**. Also remove the seal between the opening in the bumper and the tow hook, **(Figure 4)**.
- b. Repeat to remove the passenger side tow hook and proceed to **Step 2**.

Vehicles without tow hooks:

- a. Cut out the indented area in both sides of the plastic bumper to clear the Brackets as pictured, **(Figures 5 & 6)**. **IMPORTANT:** Make several small cuts for best fit. **OPTION:** Cut around the Bracket as indicated, **(Figure 6)**, or cut along the rectangular cut line molded into the pocket, **(Figure 4)**.
2. Select the driver side Frame Bracket. Insert the Bracket through the opening in the bumper and up to the tow hook mounting holes, **(Figures 7 & 8)**. Trim the plastic as required for Bracket clearance.
 3. Line up the (2) holes in the Bracket with the (2) holes in the frame for the tow hook. Select the 12mm Double Bolt Plate, **(Figure 8)**. Insert the Bolt Plate through the Bracket and the (2) holes through the frame, **(Figures 8 & 9)**. Secure with (2) 12mm Flat Washers and (2) 12mm Nylon Lock Nuts. Do not fully tighten hardware at this time.
 4. Repeat **Steps 2 & 3** to install the passenger side Frame Bracket.
 5. Select the driver side Bull Bar Bracket. Position the Bull Bar Bracket on the outside of the Frame Bracket. Use the included (2) 10mm x 30mm Hex Bolts, (4) 10mm x 30mm Flat Washers and (2) 10mm Nylon Lock Nuts to attach the Bull Bar Bracket to the Frame Bracket, **(Figure 10)**. Repeat this step to install the passenger side Bull Bar Bracket.
