

2019–**Current** Chevrolet & GMC Silverado/Sierra Light Duty Crew Cab and 2020–**Current** Silverado/Sierra Heavy Duty Crew Cab
LOCKBOX – Underseat Storage

Fits DU-HA Part Number
10430

Installation Instructions:

1 Install the DÜHA Lockbox by following the instructions included with the divider kit. Note: The factory knob for holding the jack tools in place is too large to fit inside the Lockbox so you will need to remove the knob and holder from the jack tools. Use the provided knob and washer and thread onto the post the tools were on to secure Lockbox in vehicle. Before you place the jack tools back in the DÜHA Lockbox install the driver's side gun rack (see note below). Flip the jack tools bag around so the end of the tool bag will point forward and slide into the space in the back of the driver's side gun rack (as shown). On the passenger's side you might need to press down on the Lockbox in order to get the jack back into it's bracket.

Note: To install the drivers side gun rack, slide it in from the side starting with the back, then either push or pull it into the grooves while pulling the front of the lockbox.

2 To lock the Lockbox insert the key into the lock with the teeth on the key pointing to the outside of the vehicle. Once the key is inserted turn the key clockwise to lock the driver's side and counter-clockwise to lock the passenger's side. When locked the teeth on the key should be pointing downward. Remove the key.

3 To Un-lock the Lockbox insert the key into the lock with the teeth on the key pointing downward. Turn the key counter-clockwise to unlock the driver's side and clockwise to unlock the passenger's side.

NOTE: You might need to push down slightly to get the latch to lock and un-lock.

Safety Instructions:

Warning: Make sure the Lockbox is secured in the vehicle according to installation instructions. Do not store explosives or hazardous materials in the Lockbox. Do not place loaded guns in the Lockbox. For further instructions refer to truck owner's manual or contact DU-HA, Inc.

Driver's Side

2019–Current Chevy/GMC Lt Duty Double Cab *and* 2020–Current HD Double Cab (New Body Style) —*Underseat Storage*

Fits DU-HA Part Numbers

10420 10421

10430

Installation Instructions:

- 1 Lift up the bottoms of both sides of the back seat. If you do *not* have the factory storage tray, proceed to step 3.
- 2 Remove the factory storage tray, using a 10mm socket to remove the 2 nuts holding the jack mounting plate on the passenger side and remove jack. Next remove the jack tools by loosening the knob holding them in place. Use a 10mm socket to remove the plastic screw holding the driver's side of the factory storage tray. Remove the factory storage tray from the vehicle. Re-install the jack mount plate.
- 3 Remove jack from it's holder by turning the red/yellow knob on jack to make jack retract.
- 4 Position DÜHA (A) under the back seat, with the hole for the jack tools facing the rear of the truck, slide the hole over the threaded post for the jack tools. Next, position the holes on the passenger side over the threaded posts for the jack mount/over jack mount plate.
- 5 Secure in place by re-installing the jack into the jack holder plate, making sure the holes in the bottom of the jack get seated into the tabs on the jack mount plate.
- 6 Install the jack tools back from where they were removed.
- 7 Install Foam Organizer / Gun Rack (B) and Plastic Stiffeners (C) by sliding them into the channel slots inside the DÜHA (A), as shown. Use provided Velcro straps (D) to secure guns to the gun racks to help keep them from moving around. Slide the Velcro strap through the hole under each gun rack slot and wrap around gun and onto itself to secure gun.
- 8 Lower the bottoms of both sides of the back seat to their original position.

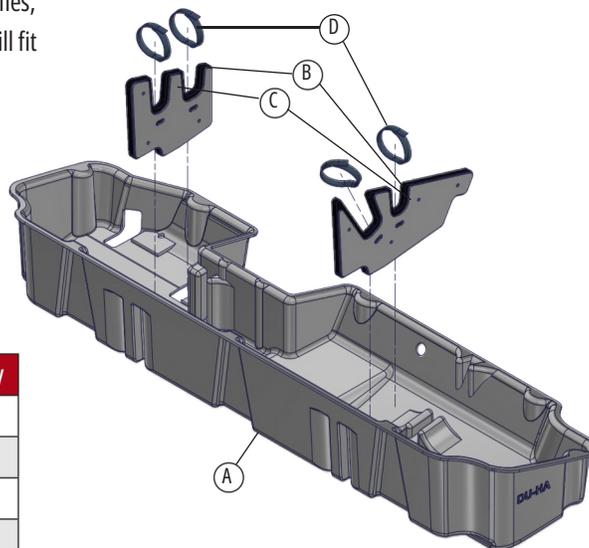

—*NOTE:* Some floor mats may need to be trimmed for the DÜHA to fit properly.

Safety Instructions:

Warning: Seat bottom must be down at all times while vehicle is moving. Make sure the DÜHA is secured in the vehicle according to installation instructions. Do not store explosives or hazardous materials in the DÜHA. Do not place loaded guns in the DÜHA. For further instructions refer to truck owners manual or contact DU-HA, Inc.

2 shotguns or rifles,
1 with scope, will fit
in the gun rack,
as pictured.
