

## B49-H8-L5 Braille Advanced AGM Endurance Series Battery

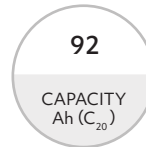

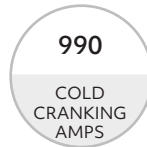

Braille Endurance AGM batteries offer a longer battery life and give you **10X Vibration Resistance**, **2X Cycle Life** and **2X Lifespan** over traditional lead-acid batteries. They are a **direct, drop-in replacement** for most factory installed flooded lead-acid batteries.

Designed for a wide range of demanding, performance applications, these batteries are reliable, long-lasting, and engineered for high shock and vibration applications.

### BENEFITS:

- Made in the USA
- 3-year full warranty when used in engine start applications
- Non-spillable and maintenance-free design
- Engineered for high shock and vibration applications
- Up to 2x faster recharge than traditional lead acid batteries
- Engineered to provide long-life in extreme applications

## PRODUCT INFORMATION

### + Physical Specs

Battery Chemistry	Absorbed Glass Mat
Length (in)	13.94"
Width (in)	6.88"
Height (in)	7.5"
Weight (lbs)	58.0 lbs
Polarity	Right +

### + Charging Specs

Alternator	13.65 - 15.0 Volts
Boost Charger (Automatic Only)	13.8-15.0 V 10A max, 6 hours max
Float Charger (Off-Season Storage)	13.2 - 13.8 Volts 1A max

### + Technical Specs

5 Second Pulse Cranking Amps	1710
Voltage	12
Capacity (Ah)	92
Cold Cranking Amps (CCA)	990
Reserve Capacity (RC)	170 min
Operating Temperature Range	-40°F / -40°C to 140°F / +60°C
Optimum Storage Temperature	68°F / +20°C
