MOUNTING

The MSD Coil is designed to be a direct replacement, due to the number of applications available, the mounting of the coils may be slightly different.

1. Remove the coil covers (if supplied) from the valve covers.
2. Remove the spark plug wire from the coil.
3. Disconnect the factory connector, remove the coil retaining bolts and remove the coil.
4. Install the MSD Coil in the same position as the original coil.
5. Connect the wiring harness and spark plug wire.

Note: MSD Super Conductor 8.5mm Spark Plug wire sets, PN 32813, PN 32819, PN 32823 or PN 32829 are recommended.
