Please take a few minutes to read and thoroughly familiarize yourself with the installation procedures outlined in this manual. Following the steps as outlined will save you time and help reduce mistakes. Once the instructions are reviewed, if you feel that you are not capable of safely installing the parts seek the help of a qualified installation expert to help you complete the job. The manufacture is in no way responsible for any personal injury or vehicle damage that may occur during the installation.

ELECTRICAL INSTALLATION

This bumper comes complete with LED lights which need to be connected to a power source. Failure to properly make these connections could result in damage to the LED lights and/or your vehicle and may result in personal injury. If you are not qualified to make the proper connections, we highly recommend that you contact an installation expert to complete the connections.

California Proposition 65 Warning!

This product may contain lead a chemical known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

FACTORY GRILLE REMOVAL

Step 1

Using a plastic rivet removal tool locate and remove 12 factory clips holding the radiator shroud onto vehicle. Remove plastic radiator shroud from vehicle. Set shroud and hardware aside for reinstallation.

Step 2

Using a 10mm socket locate and remove 4 factory bolts securing factory grille onto vehicle. Set hardware aside for reinstallation.

Step 3

Looking toward the vehicle locate and remove 2 factory hex head bolt using a 10mm socket as shown. Discard factory hardware.

Step 4

Firmly grab and pull factory grille off of vehicle. Discard factory grille.

INSTALLING NEW GRILLE

Step 1
Place supplied grille (A) onto vehicle as shown.

Step 2
Install grille (A) onto vehicle by reversing steps 1-2 in page 2.

Proceed to make electrical connections for the LED lights. If you are not qualified to make the proper connections, we highly recommend that you contact an installation expert to complete the connections.

This completes the installation process.
