

LED LICENSE PLATE LAMPS

(2001-2013 SILVERADO)

(2001-2013 SIERRA)

INSTALLATION INSTRUCTIONS

CONTENTS

(2) LED License Plate Lamps

TOOLS REQUIRED

Flat Head Screwdriver

SKU # S128431

STEP 1

Using a flat head screwdriver, gently remove the vehicle license plate lamp housing from the bumper.

STEP 2

With the housing removed, un-twist the light socket from the housing. Remove the light bulb from the socket.

STEP 3

Plug in the new LED light into the vehicle light socket. Neatly tuck the wiring harness into the light housing, then secure the vehicle light socket into the new LED light housing.

STEP 4

Press the LED light housing into the vehicle bumper. Ensure the light is secure.

Installation is now complete.
