

LOWER BUMPER GRILLE INSERT

(2009-2014 F-150)

(Excluding Raptor, Harley Davidson, & 2011 Limited)

INSTALLATION INSTRUCTIONS

CONTENTS

- (1) Lower Grille
- (2) Phillips Screws
- (2) Clip Nuts
- (2) Brackets

TOOLS REQUIRED

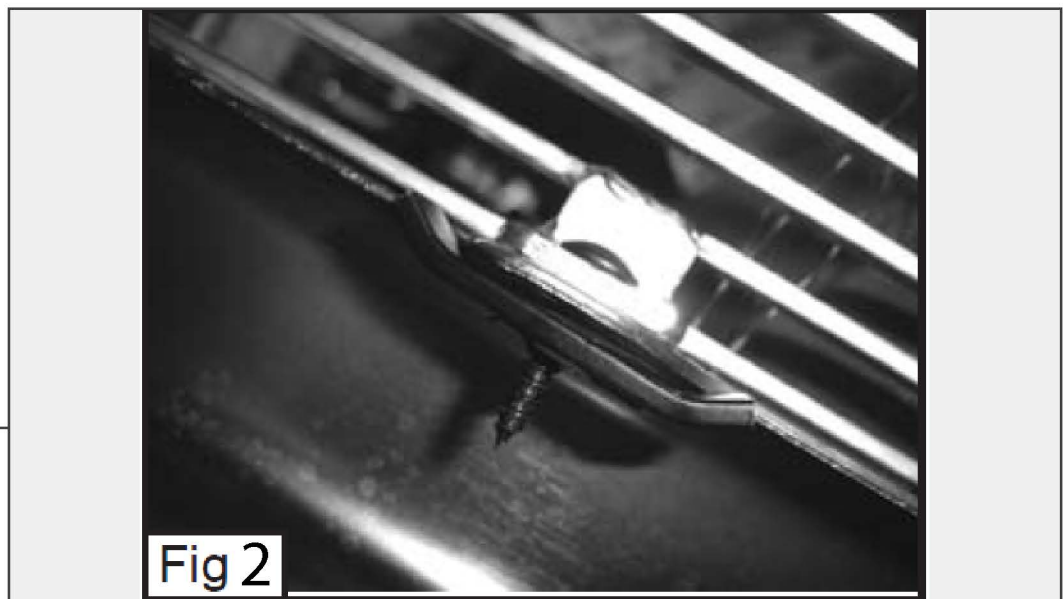

Phillips Screwdriver

SKU # T102433

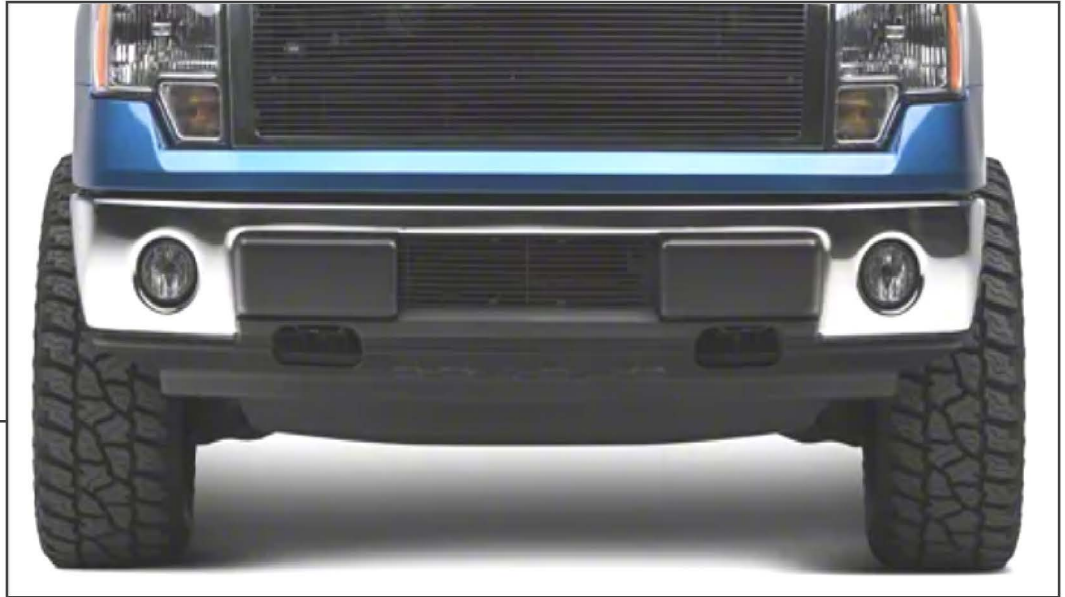

STEP 1

Remove the vehicle front license plate holder, if equipped. Place the bottom of the grille insert (extended rectangular tabs) into the vehicle lower (2) cutouts in the bumper.

Hinge the top of the grille insert into the top of the bumper.

STEP 2

Using the provided clip nuts and brackets, fit the clip nuts around the bracket and align the clip nut screw hole to the bracket hole. Then, fit the included Phillips screws through the grille panel bolt holes as well as the bumper bolt holes, and thread the Phillips screw into the clip nuts/bracket assembly.

STEP 3

Tighten the Phillips screws until the grille insert is secure. Gently bend the grille bars to best fit the vehicle bumper, if necessary.

Installation is now complete.
