

LED PUDDLE LIGHTS

(2007-2014 F-150)

INSTALLATION INSTRUCTIONS

CONTENTS

(2) LED Puddle Lights

TOOLS REQUIRED

Flathead Screwdriver

STEP 1

Locate the vehicle's puddle light in the vehicle's mirror. Using a flathead screwdriver, gently pry the light out from the mirror. Unplug the (2) spade connectors connected to the light.

STEP 2

With the original light removed, plug in and install the new LED puddle light by inserting one side of the light into the mirror housing, then hinging the remaining side into the mirror until it clicks into place.

Installation is now complete.
