SKU # T556418

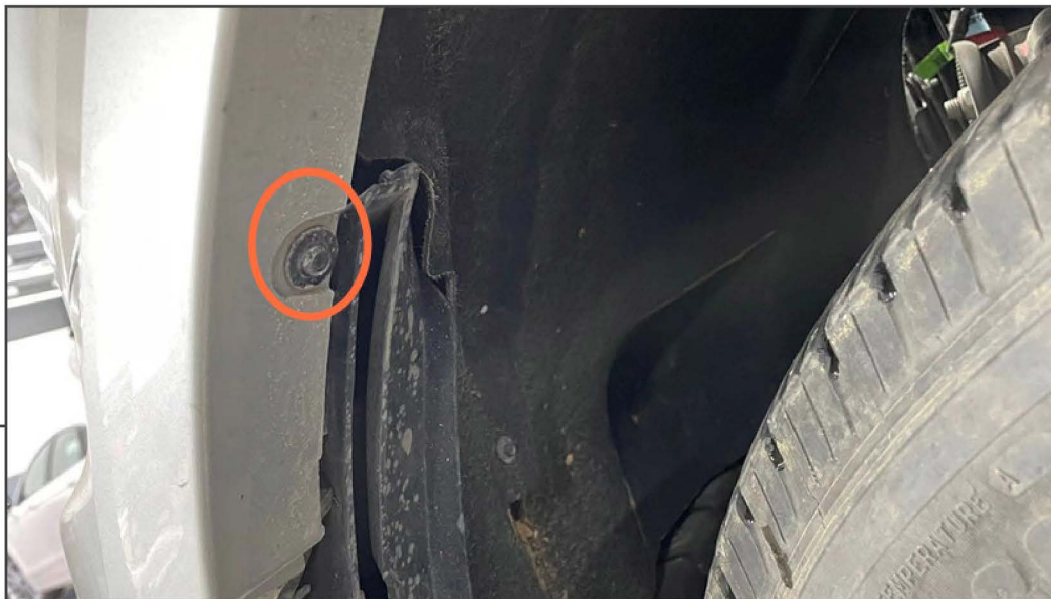

**STEP 1**

Install the (3) supplied lights using the provided (6) small screws. Connect the lights to the supplied wiring harness.

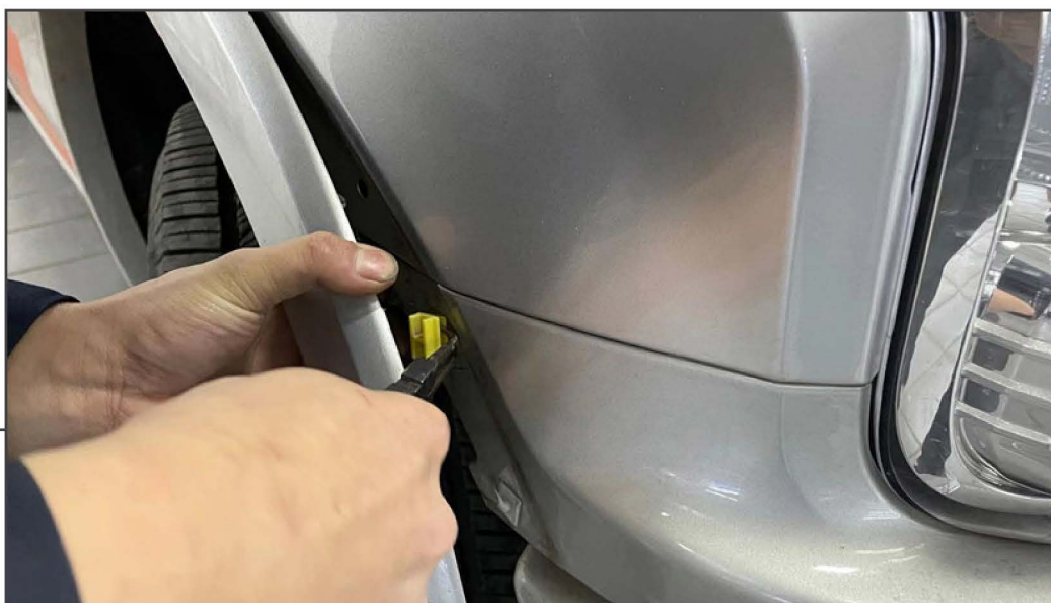

**STEP 2**

Install the grille corner brackets using the provide large screws. (4) Screws per side.

**STEP 3**

Using 7mm socket, remove the screw holding the forward most portion of the fender flare to the bumper.

**STEP 4**

Firmly pull the forward section of the flare away from the vehicle.

**STEP 5**

Remove the bumper filler from the vehicle.

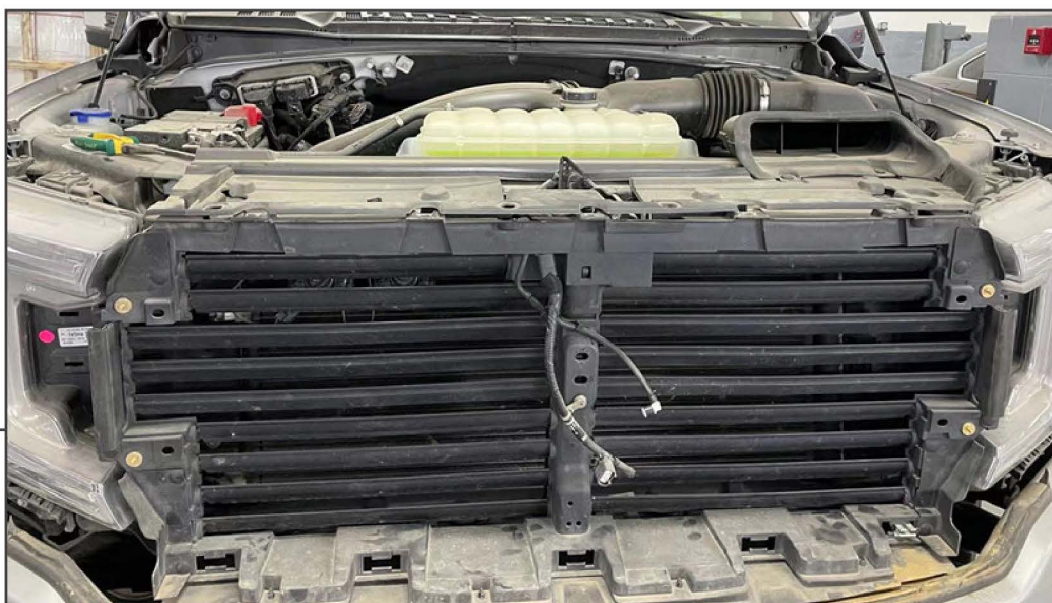

**STEP 6**

Remove the (13) plastic push clips securing the radiator cover to the vehicle.

**STEP 7**

Remove the (2) electrical connectors from the back of the grille.

**STEP 8**

Remove the grille from the vehicle.

**STEP 9**

Transfer the metal clips from the factory grille to the new grille.

**STEP 10**

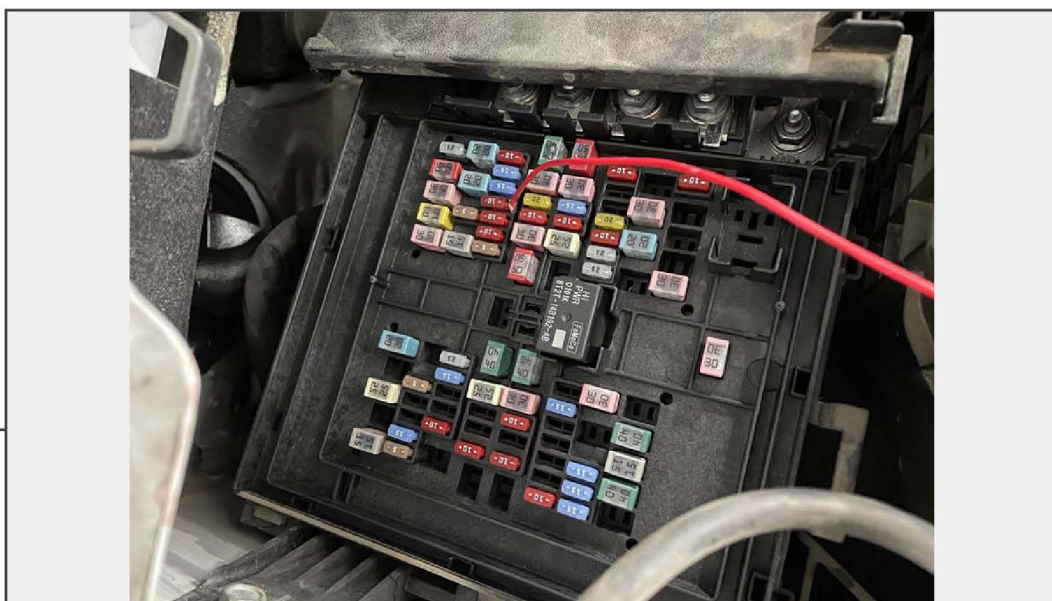

Transfer the grille emblem from the factory grille to the new grille.

**STEP 11**

Reinstall the grille to the vehicle.

**STEP 12**

Wiring: Connect the black wire to chassis ground. Connect the red wire to ignition 12v+ ACC.

---

**STEP 13**

Follow Steps 3-6 in reverse order to complete the installation.
