

LED FOG LIGHTS

(2009-2014 F-150)

INSTALLATION INSTRUCTIONS

CONTENTS

- (2) Fog Lights
- (2) Allen Bolts
- (2) Flat Washers
- (2) Plastic Screw Clips
- (2) Tension Springs
- (1) Allen Key

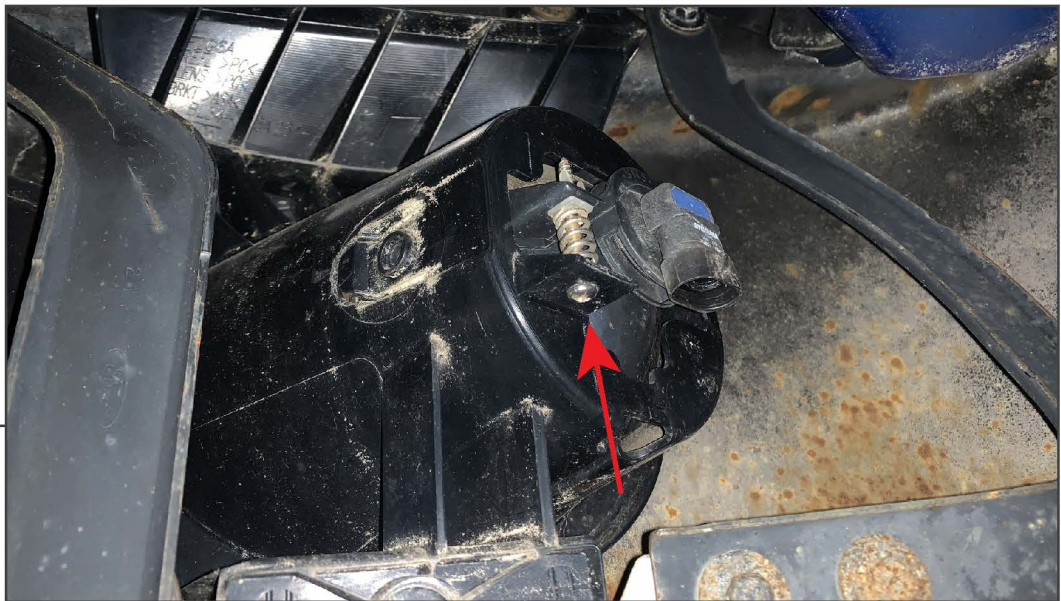

TOOLS REQUIRED

- Phillips Screwdriver
- Flathead Screwdriver

STEP 1

Unplug the wiring harness from the fog light bulb.

STEP 2

Remove (1) Phillips screw and the tension spring from the fog light.

STEP 3

Using a flathead screwdriver, gently pry the (2) plastic fog light retaining tabs back while pushing the fog light towards the front of the vehicle. Remove the fog light from the front of the bumper.

STEP 4

Insert the fog light through the front of the bumper until the retaining tabs secure the sides of the fog light. Secure the fog light using (1) Allen bolt, (1) flat washer, and (1) tension spring.

STEP 5

Repeat steps 1-4 to the opposite side of the vehicle.

Installation is now complete.
