

Front Grill Replacement for F150 2009-2014 Matte Black w/Off-Road Lights

Step 1:

Remove the 6 bolts and take off the bar at the bottom of the original grille. Then Remove the original grille from the vehicle.

Step 2:

Align all the clips to the holes and clip them in. Install the bar removed from the original grille to the bottom of the new grille.

Step 3: Wiring light bar

The black wire connects to negative of the battery
The red wire connects to headlights.

Step 4:

Fix all the bolts and finish the installation of new grille.
