

Front Grill Replacement for F150 2015-2017 Matte Black w/Off-Road Lights

Step 1:

Remove all the bolts and take off the plastic trim piece. Peel off the part surrounding the headlight and remove the three bolts. Same thing on the other side. Then pull up the original grille from the vehicle.

Step 2:

Put the new grille to the vehicle and align all the clips to the holes and clip them in.

Step 3:Wiring light bar

option 1:

The black wires connect to negative of battery, the red wires connect to headlights.

option 2:

The black wires connect to negative of battery, the red wires connect to ACC.

Step 4:

Fix all the bolts and finish the installation of new grille.
