

HOOD SCOOP

(2021-2023+ F-150 RAPTOR)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Hood Scoop

TOOLS REQUIRED

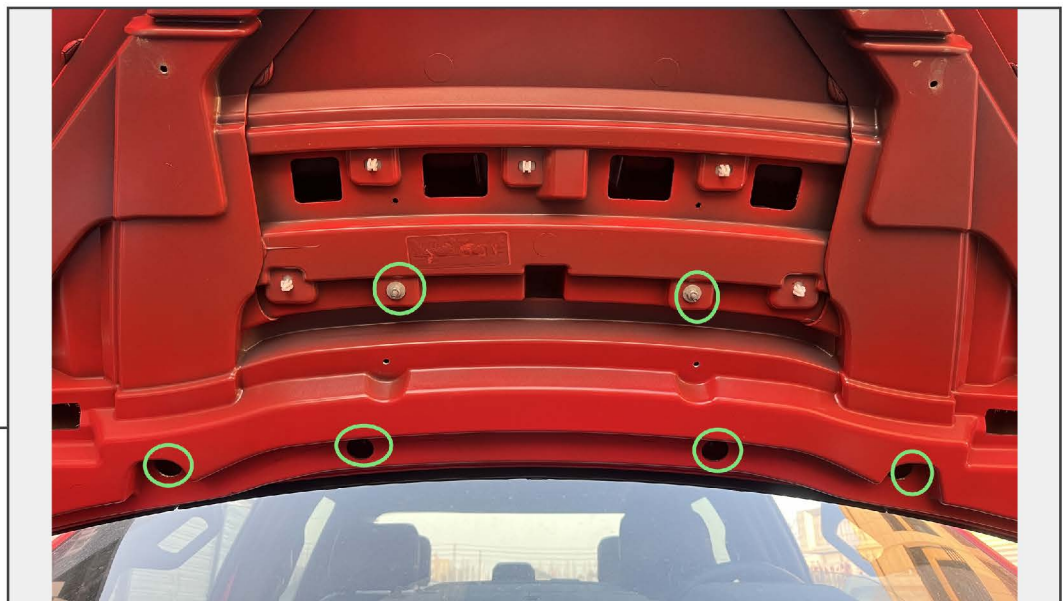

Panel Removal Tool
10mm Deep Socket
Ratchet
Exterior Detailer
Microfiber Cloth

STEP 1

Open the vehicle hood. Remove (10) plastic pins from the hood insulation, and (4) plastic caps from the hood.

STEP 2

Remove (6) 10mm nuts from the under-side of the hood.

STEP 3

Lift the vehicle hood scoop from the vehicle.

Clean the hood scoop area using exterior detailer and a microfiber cloth.

STEP 4

Transfer the hood scoop emblems, retaining clips, and mounting studs from the original hood scoop to the new hood scoop in the original location and orientation.

STEP 5

Re-install the hood insulation using the original mounting hardware.

Installation is now complete.
