

COOLANT OVERFLOW COVER

(2015-2023 F-150)

INSTALLATION INSTRUCTIONS

CONTENTS

(1) Coolant Overflow Cover
(1) Foam Strip

TOOLS REQUIRED

10mm Socket
Ratchet
Isopropyl Alcohol
Microfiber Cloth

STEP 1

Place the cover on a soft surface face down. Then, clean the bottom using isopropyl alcohol and a microfiber cloth. Once clean and dry, peel the tape backing from the included foam strip and adhere the foam to the cover.

STEP 2

Loosen the (2) 10mm bolts securing the coolant tank to the vehicle.

**STEP 3**

Gently lift the coolant tank to allow the cover mounting points to fit between the coolant tank and the vehicle. Once fitted, tighten the coolant tank (2) 10mm bolts until secure.

**STEP 4**

Installation is now complete.
