

Installation Guide

Raptor Style Mesh Grille
For 2021-2023 Ford F150

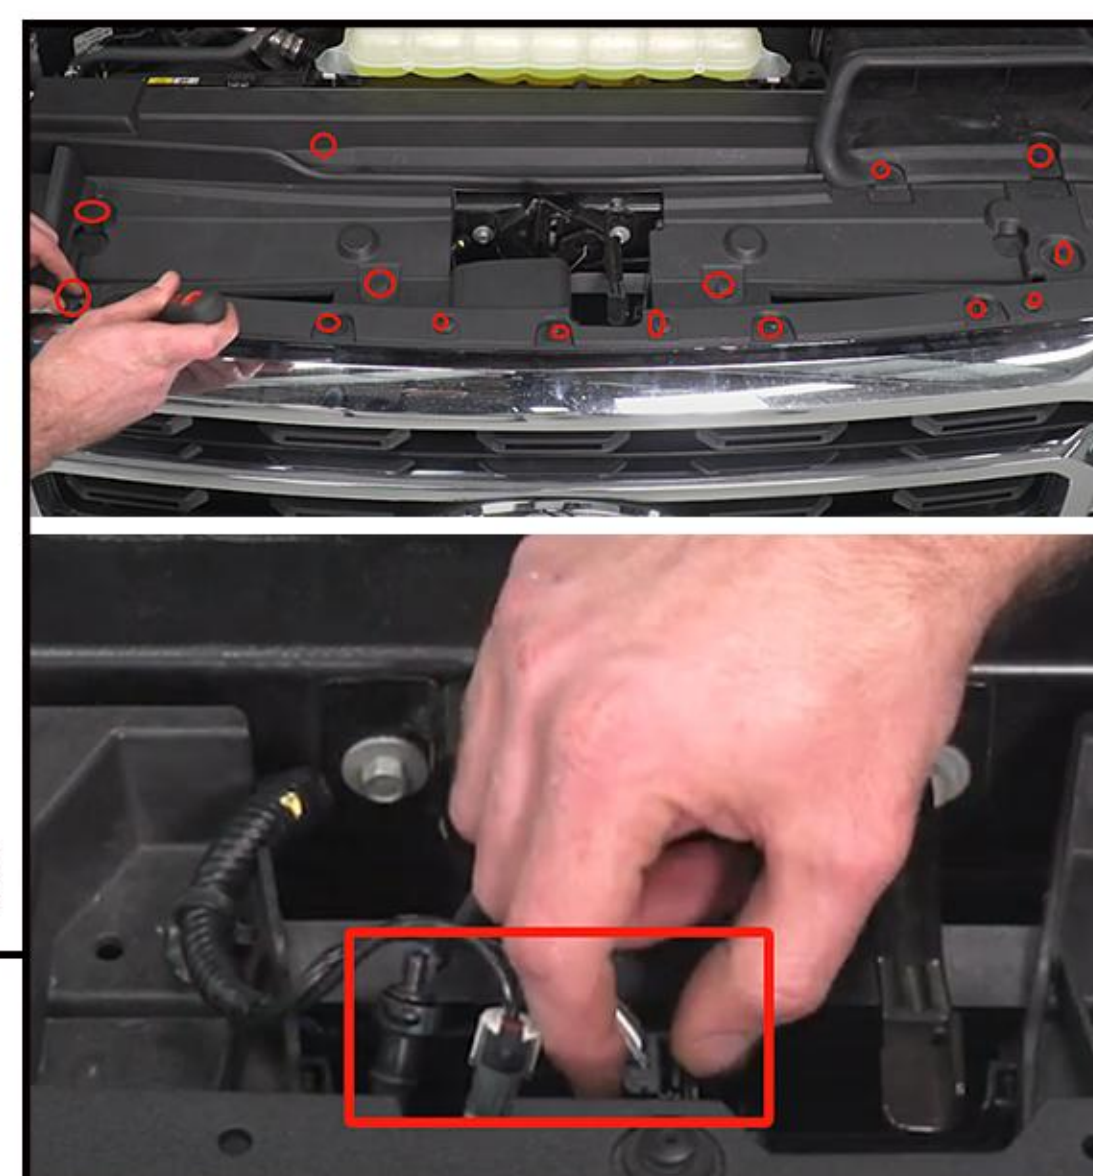

SKU # AMFMAA00162

STEP 1

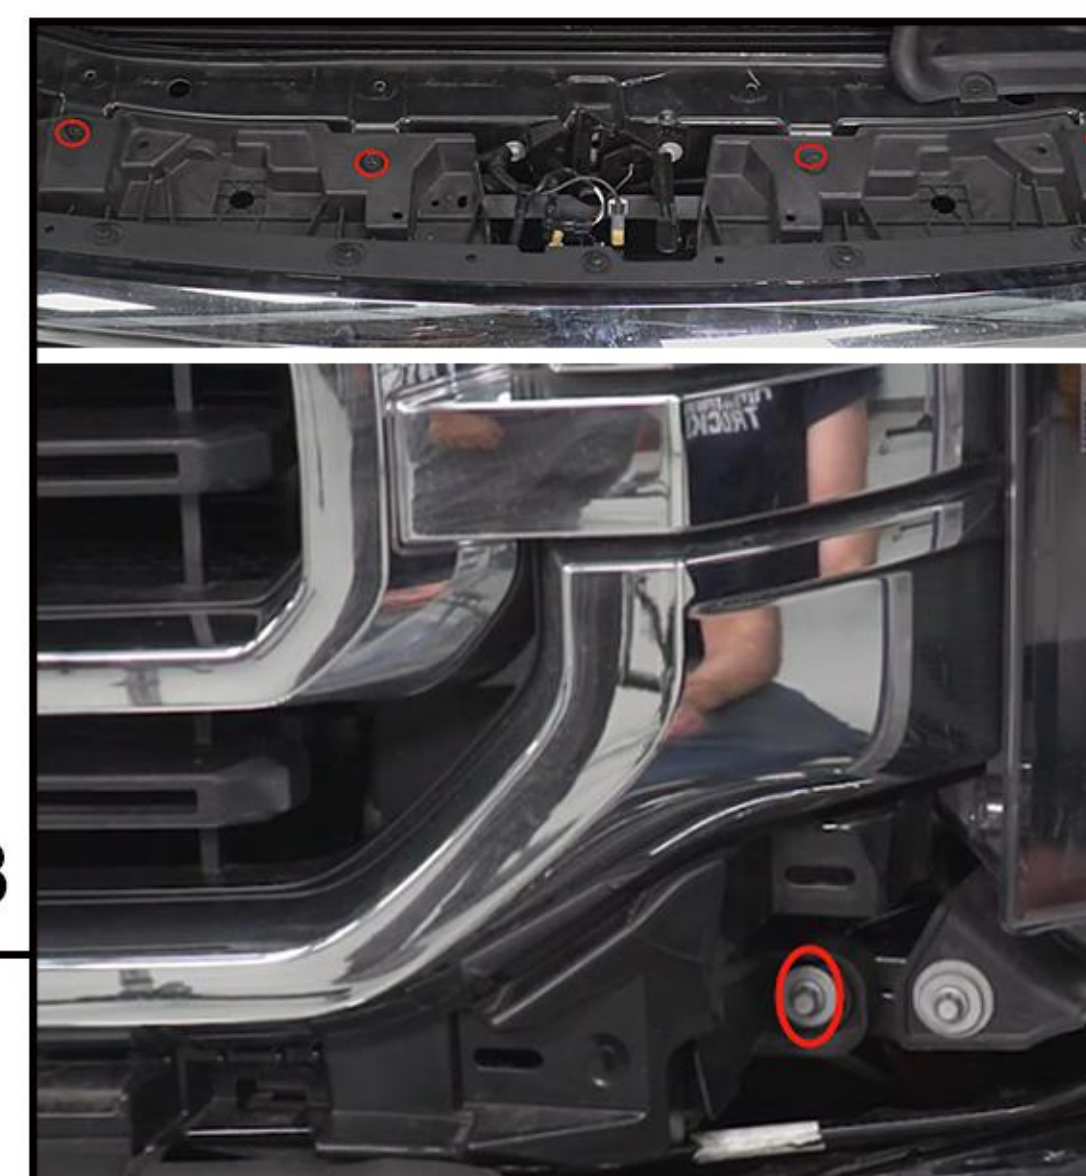

Remove two 7-millimeter bolts on each side with a 7-millimeter socket and pop out a bunch of clips to remove the lower trim.

STEP 2

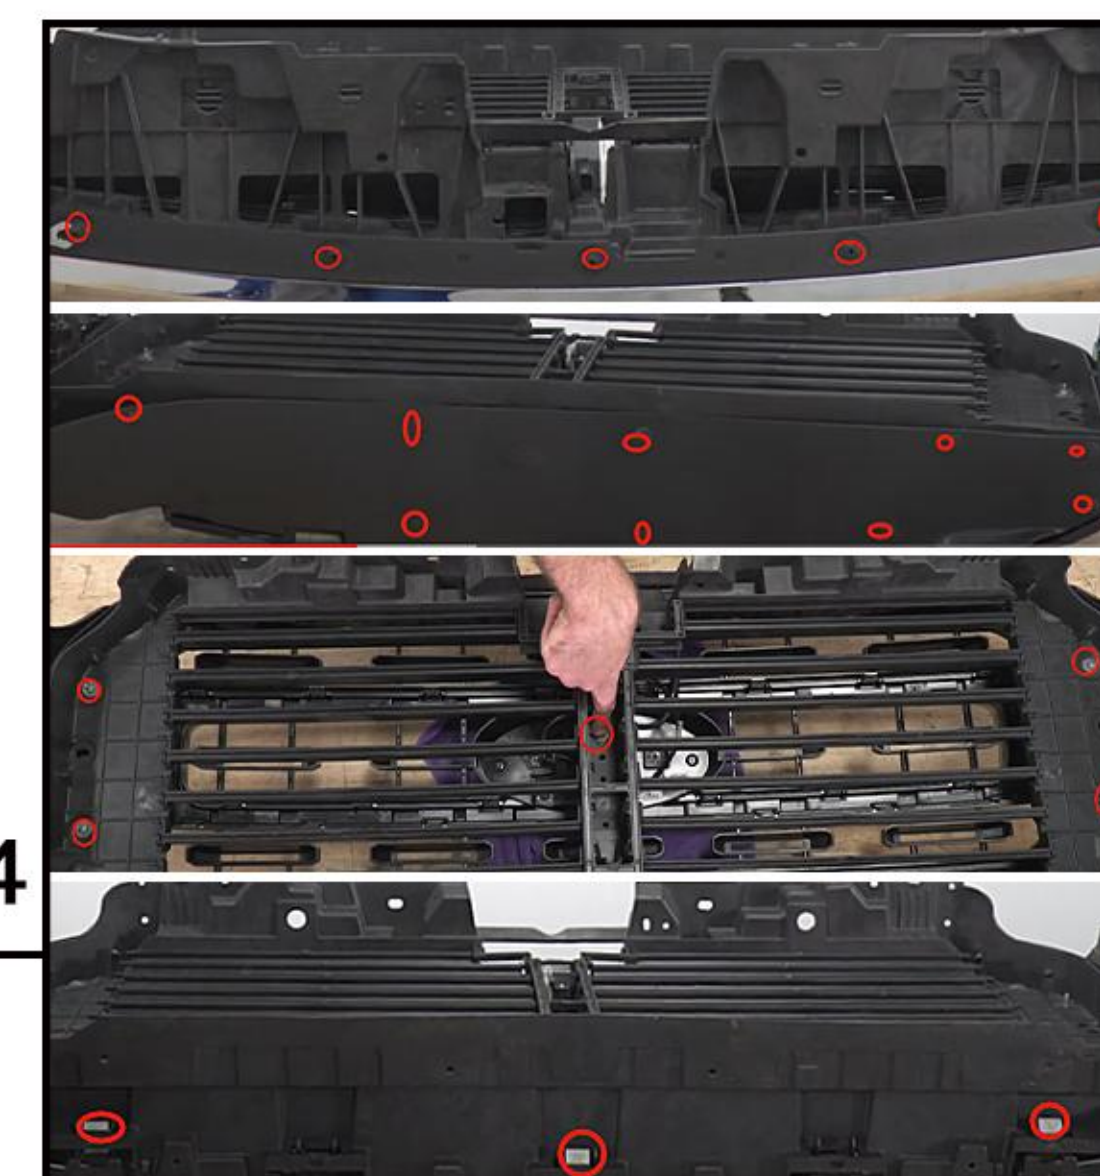

Remove all of the push clips to remove the radiator cover. Then disconnect three connectors.

STEP 3

Remove these four bolts that hold our grille in up top. Remove an 8-millimeter bolt on each side at the bottom outside of the grille. Then pull straight back on the grille to remove it.

STEP 4

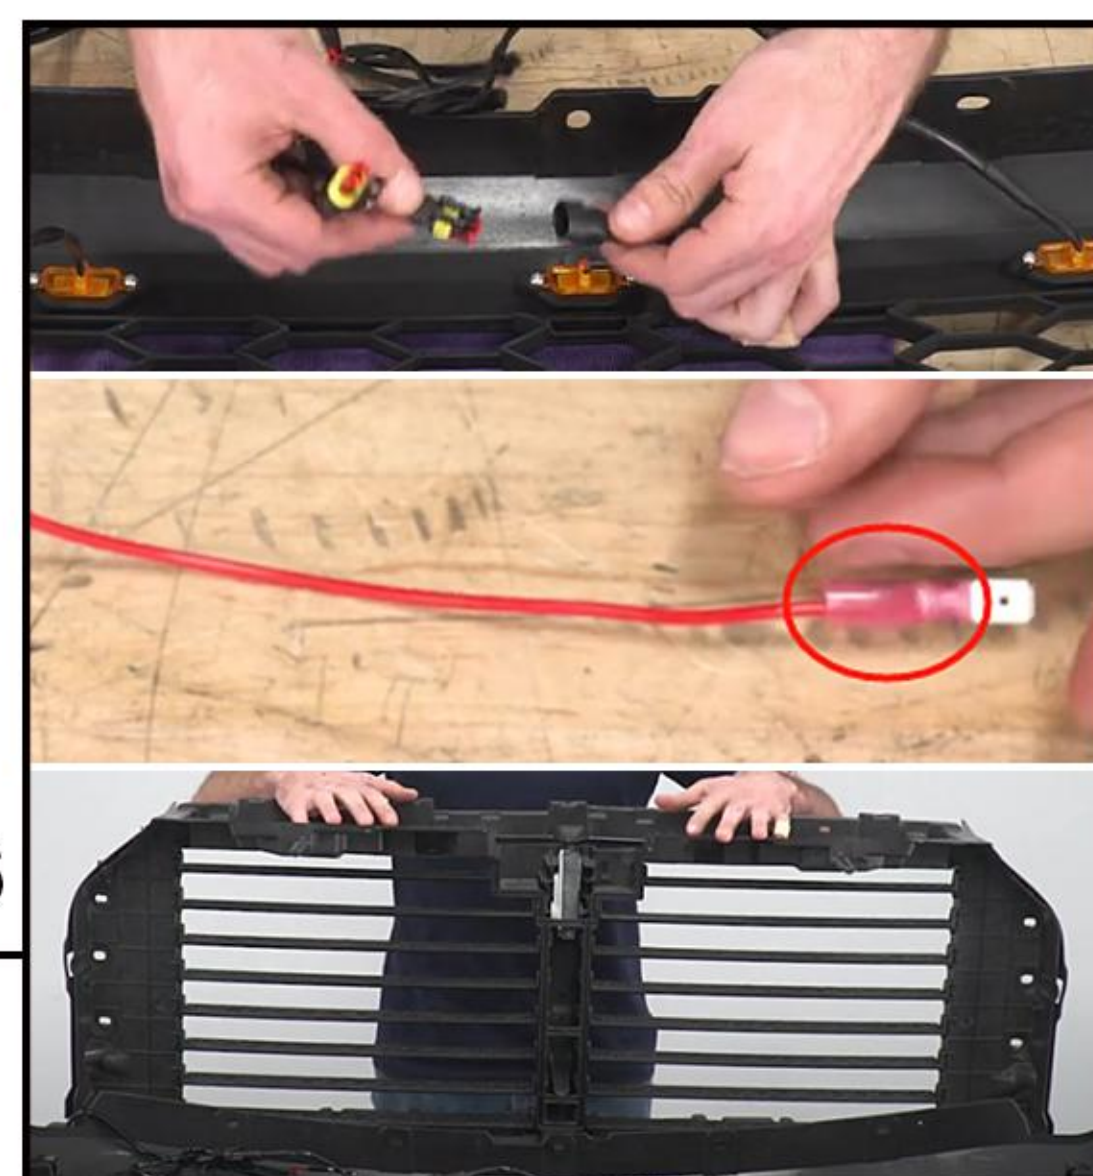

Remove shutter assembly: First remove five push clips up top as well as a bunch of push clips on the lower cover. Next remove the 8-millimeter bolt in the center valley as well as four 10-millimeter bolts on two sides. Finally, pop out the clips along the bottom side of the grille.

STEP 5

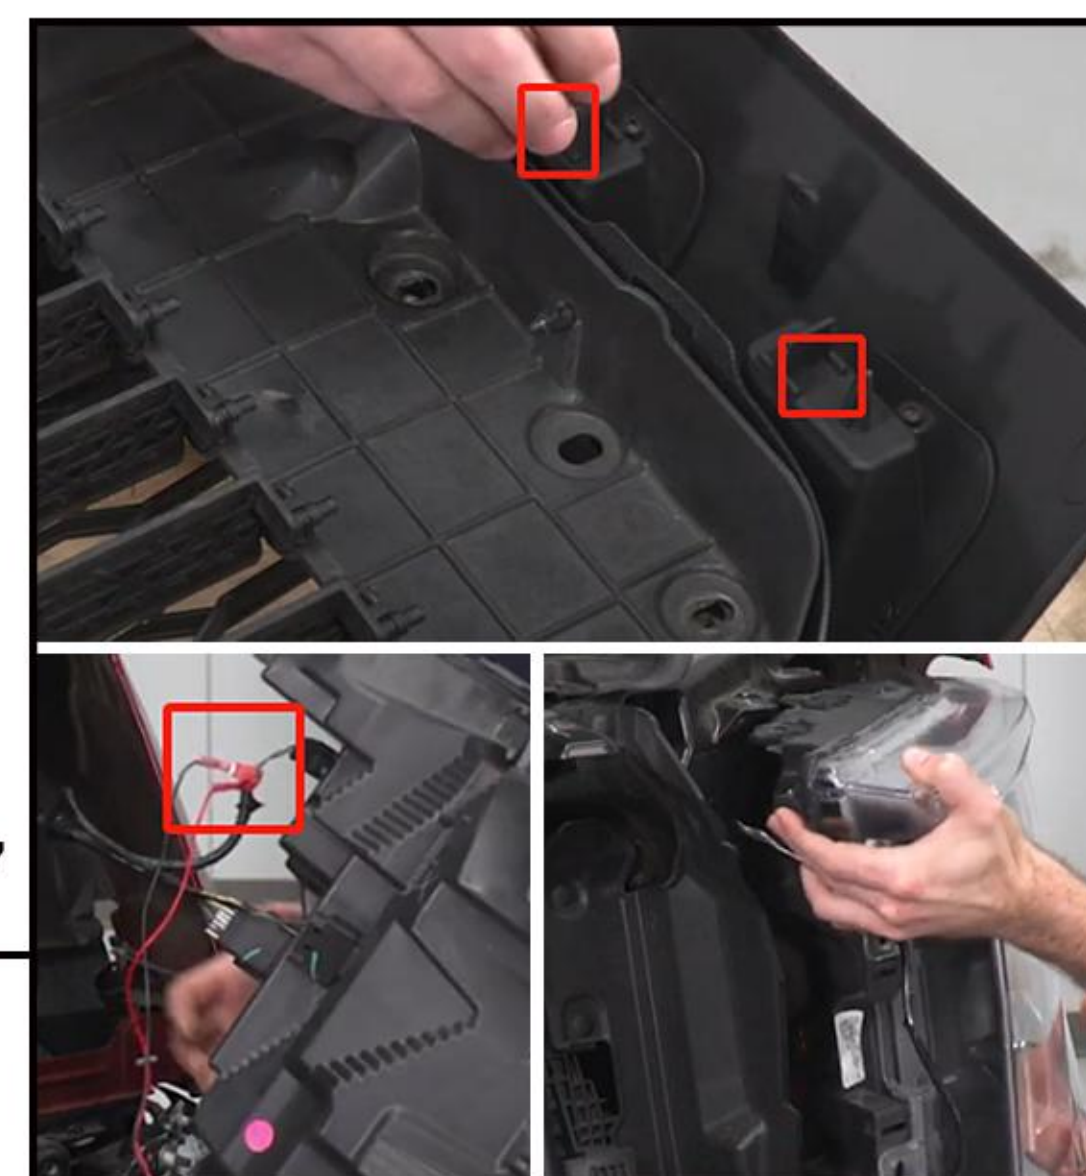

Remove two 10-millimeter bolts, a push clip up top and a 8-millimeter bolt, a nut at the bottom to remove one headlight. Remove these clips to swap emblem. Loosen 5 screws to remove the horizontal bar and install the emblem onto the new grille. Then reinstall the horizontal bar.

STEP 6

Connect each amber light to the wiring harness. Crimp the male spade connectors onto the positive and negative. Follow the step 4 in reverse order to reinstall shutter assembly onto the new grille.

STEP 7

Install clips onto both sides. Plug the red wire of the grille into the positive wire of the headlight and black to the negative wire. Follow the step 5 in reverse order to reinstall the headlight.

STEP 8

Pop the grille into place, follow the step 2&3 in reverse order to reinstall the new grille. Follow the step 1 in reverse order to reinstall the lower trim. Finally, complete the installation.
