

Installation Guide

Raptor Style Front Hood Grille
For 2009-2014 Ford F150

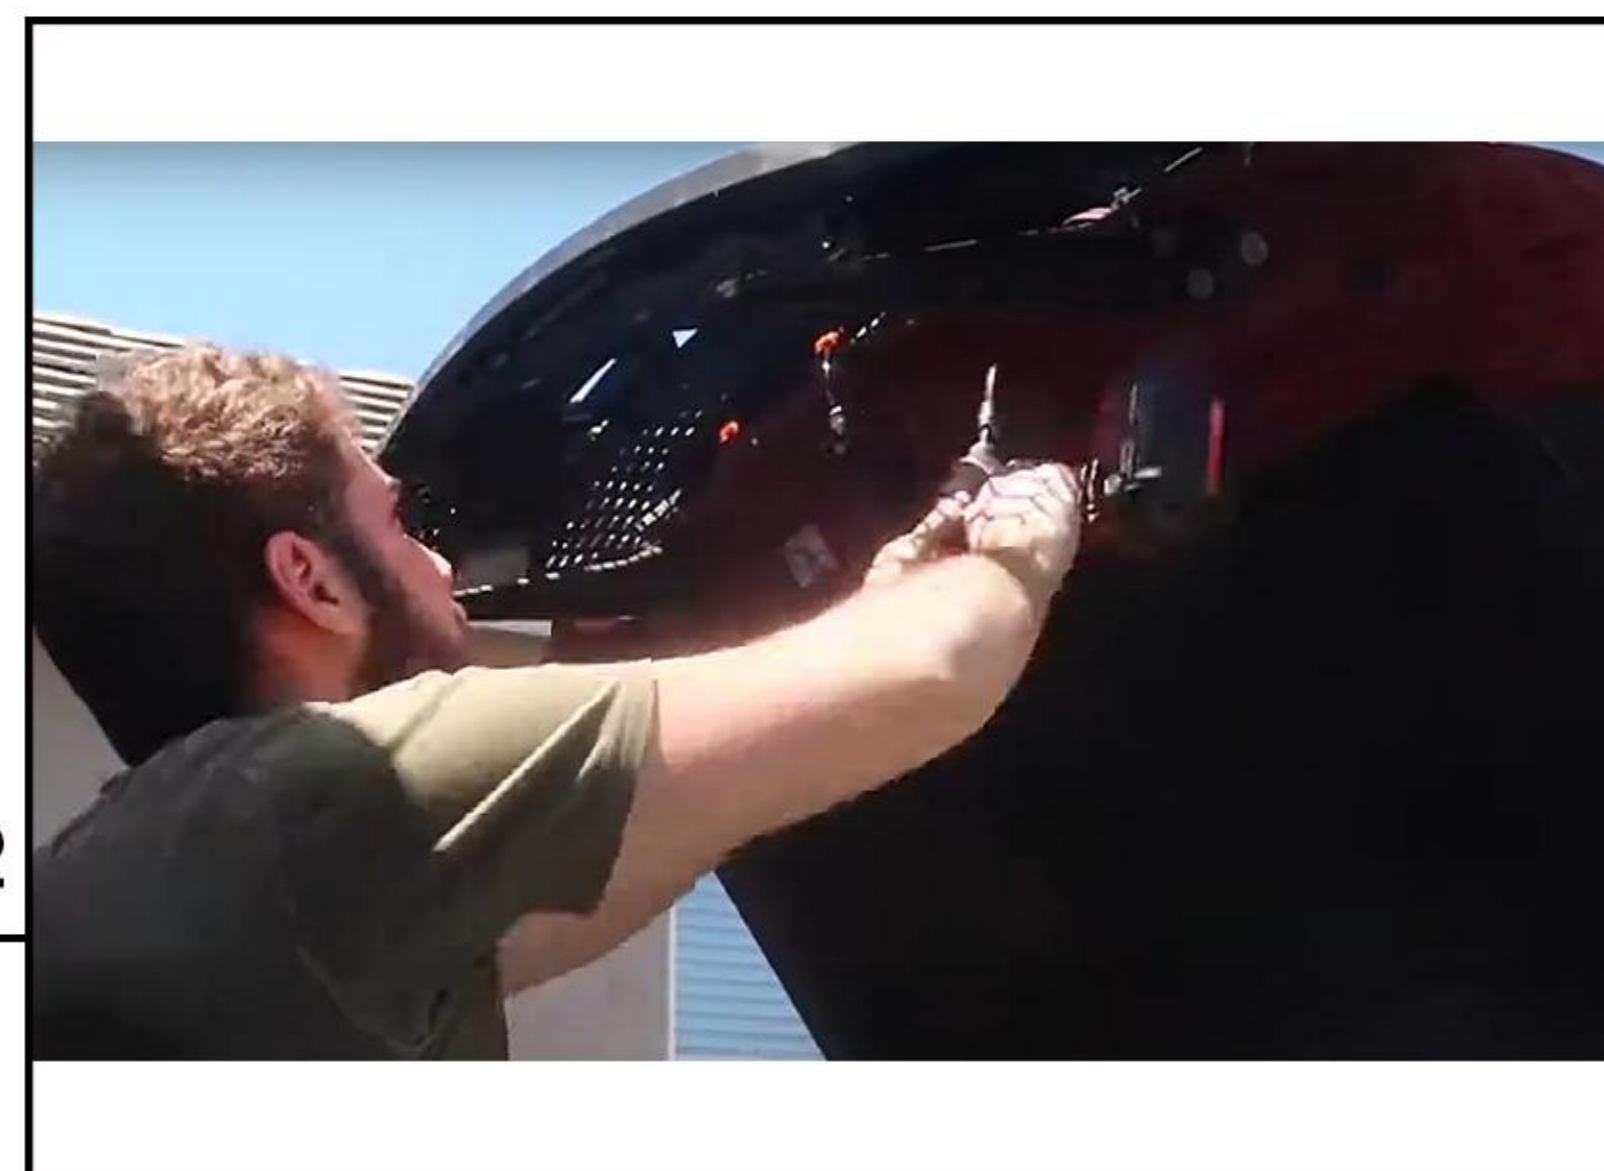

SKU # AMFMAA00108

STEP 1

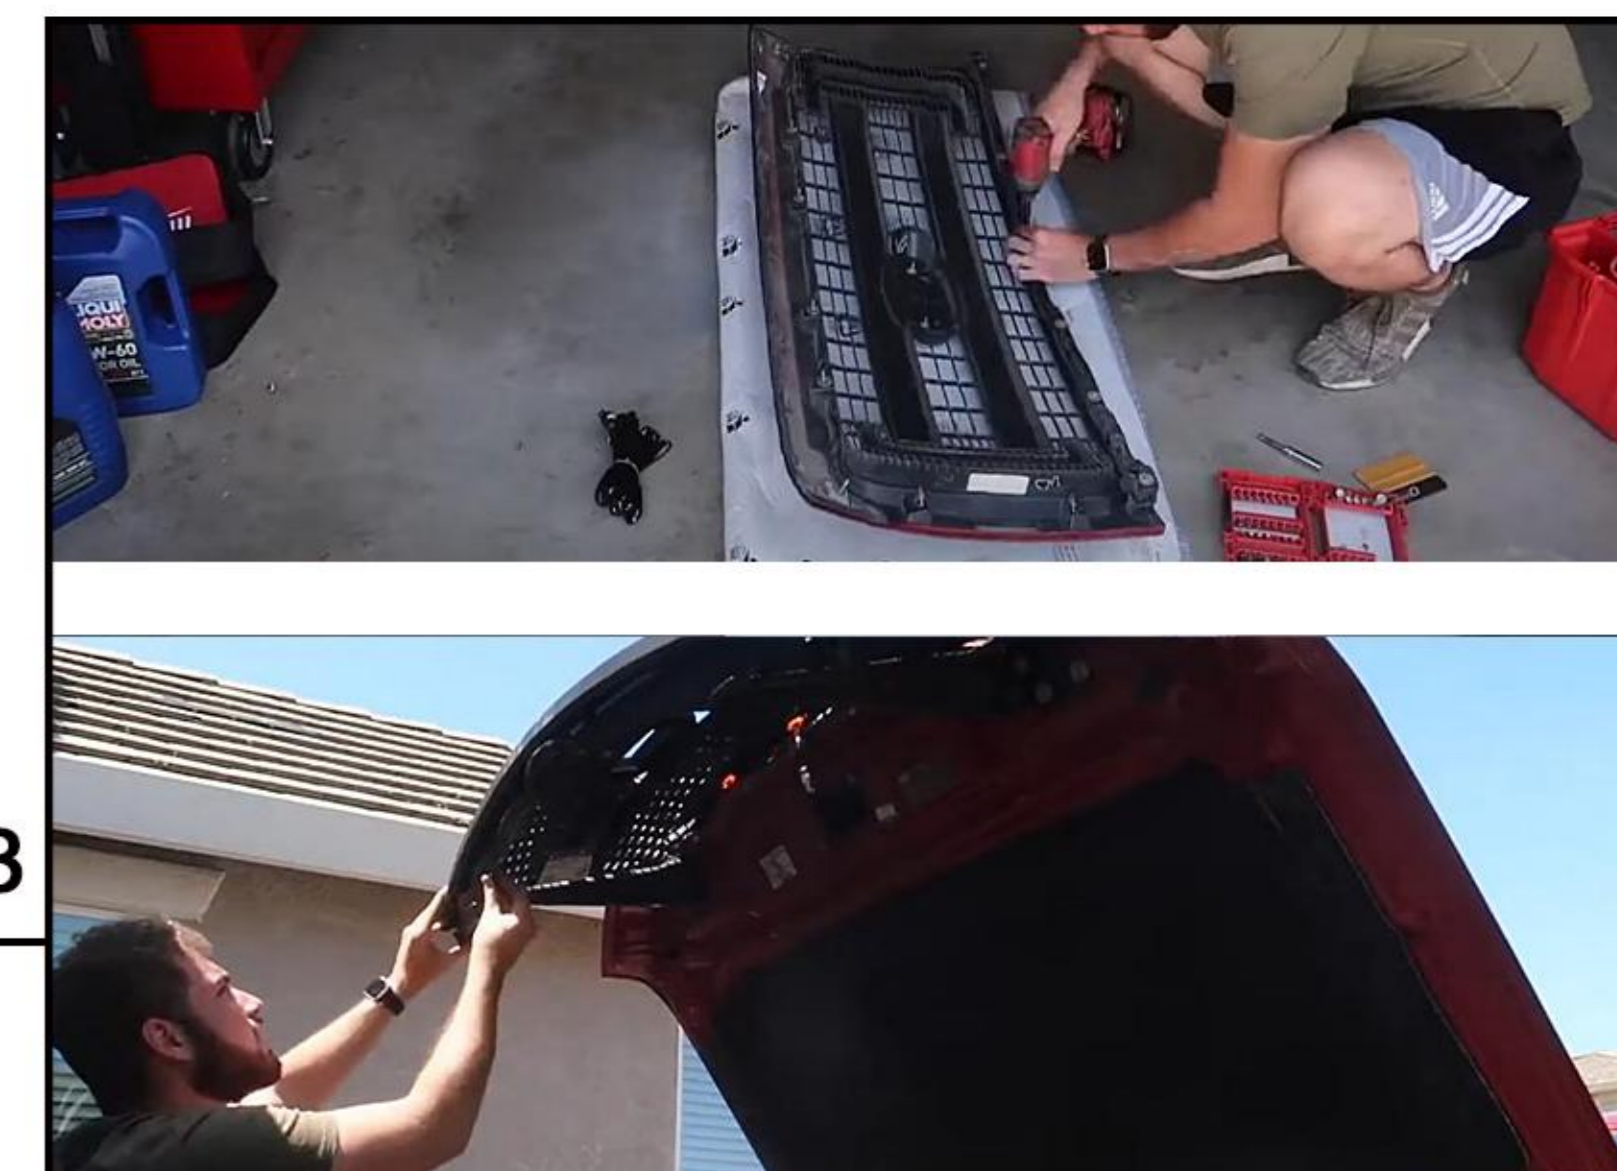

Remove the eight screws onto the front hood and six screws holding it down to the actual face of the hood.

STEP 2

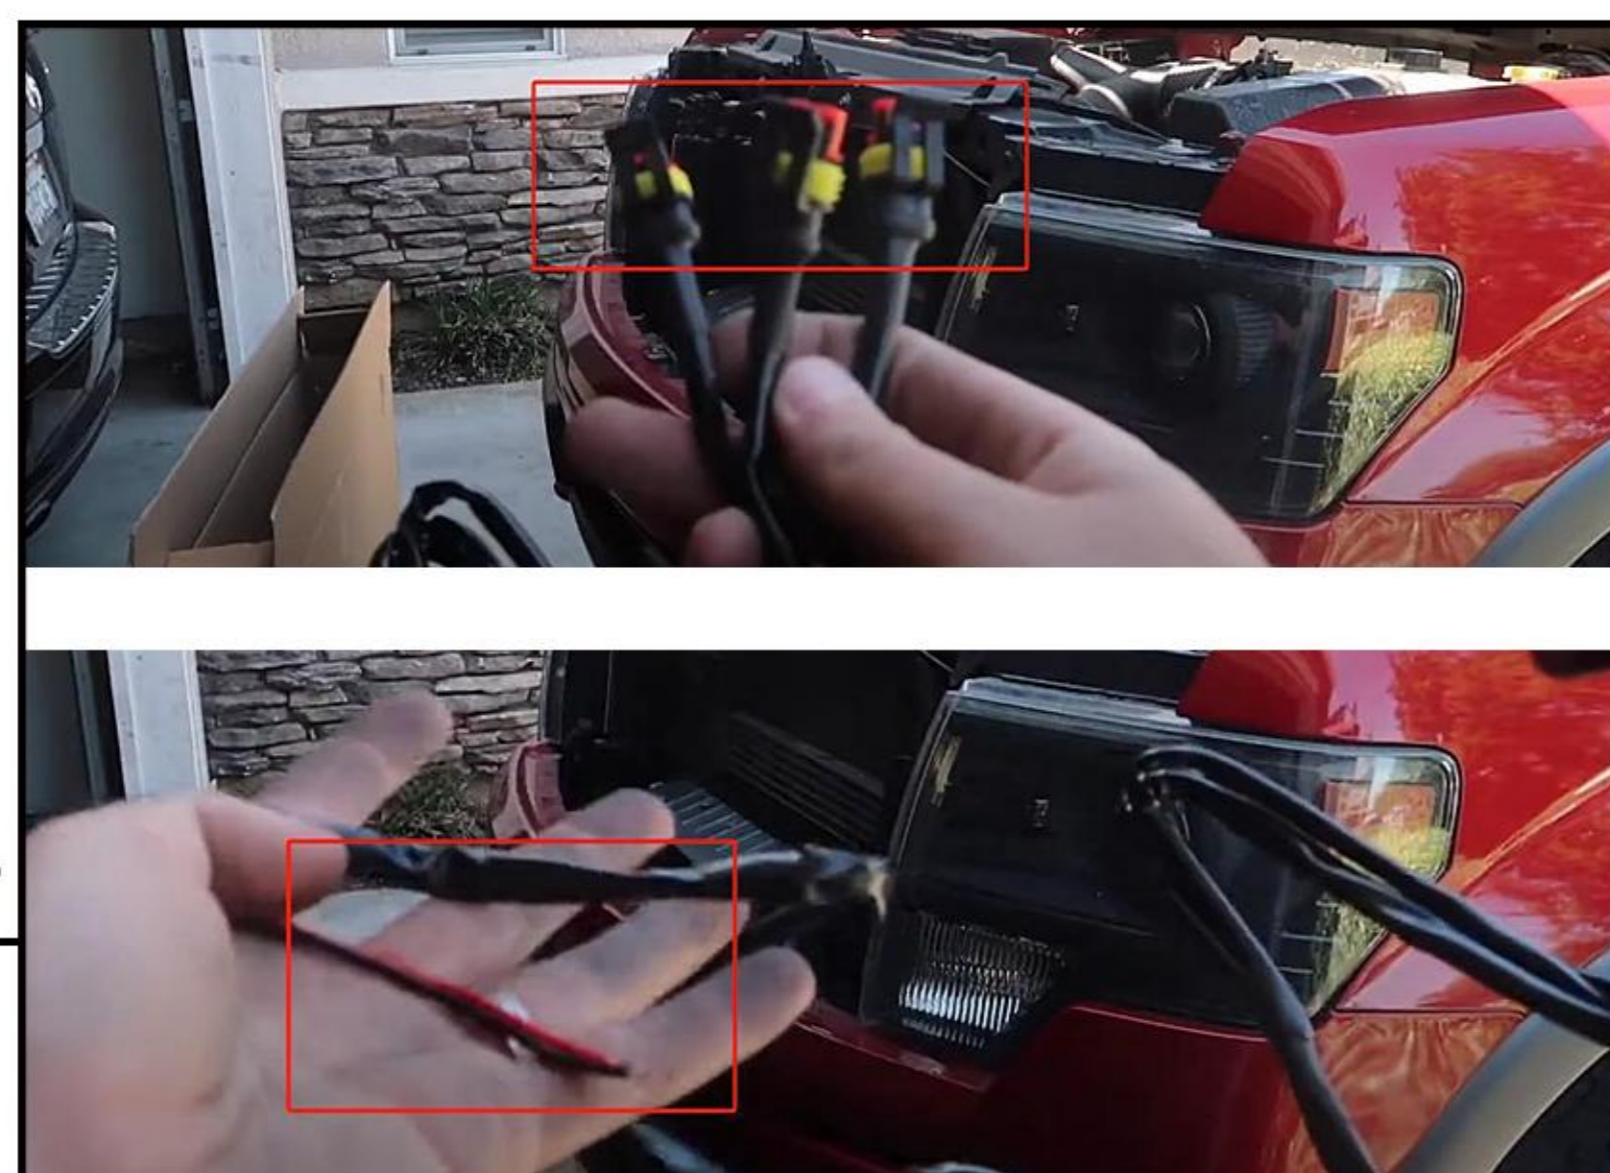

Screw the new grille back in on the truck.

STEP 3

Remove the brackets from the original grille and reuse it on the new grille.

STEP 4

Connect these (circled in the picture) to all three of the bulbs and the two red and black wire to your headlight. Remember to connect the black wire to the green wire and the red wire from harness to the yellow wire.

STEP 5

After all the wires are connected, close hood to complete the installation.
