CONTENTS

- (1) LH Light Assembly
- (1) RH Light Assembly
- (1) Vehicle Connector
- (1) Charger Cable
- (1) Storage Case

TOOLS REQUIRED

N/A

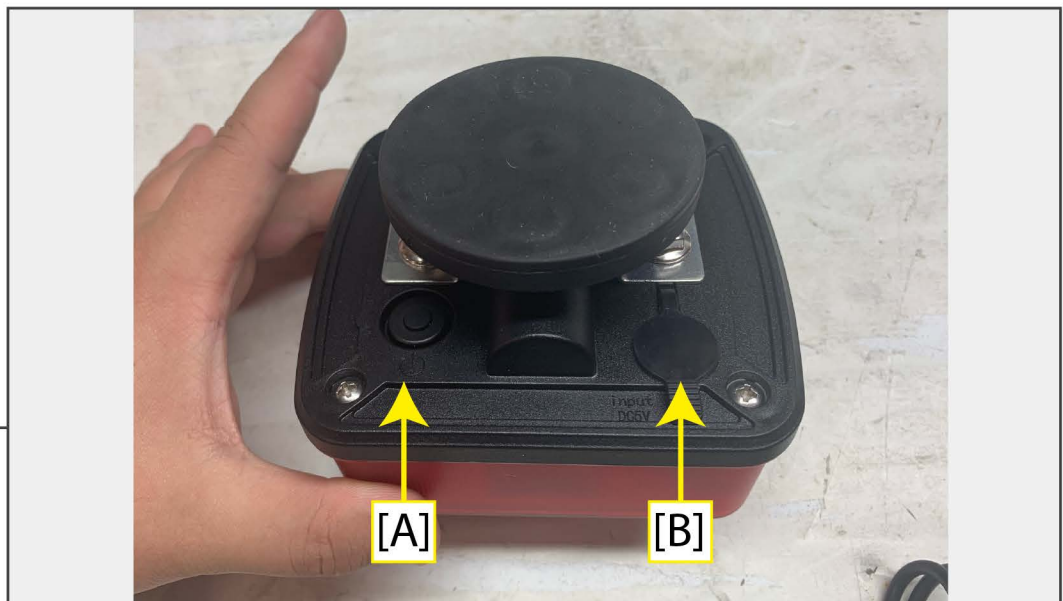

SKU # U5558

STEP 1

Plug in the vehicle connector into the vehicle's trailer light connector.

STEP 2

Press the "Power" button on each light [A], then place them at the desired location on the trailer. Test the lights using the turn signals to ensure they are placed on the correct side of the vehicle. **Always test the lights before driving. Charge as needed.

Recharge the lights by folding the seal back on each light [B] to reveal the charger port. Use provided charger to charge lights.
